### Internship

The program includes an internship experience within a company and does not include classroom training. It is aimed, and hence suggested, for those who already have basic knowledge of China, both from a linguistic and cultural-social point of view.

**Internship placement:** FourStars find an internship for you in compliance with your profile and your expectations according to his decade of know-how in recruitment and placement. Our network in Shanghai is composed of Chinese and Western companies and our staff, in Shanghai as in Italy, is formed by HR Specialist with extensive experience who will act as an intermediary between you and our partner companies.

**Resume and application coaching:** we adapt your profile to the latest trends on the competitive Chinese job market. Our staff in Shanghai will coach you on Skype for the job interview with the potential host companies. The coaching will keep happening in Hong Kong through seminars and events.

**Introduction to host company:** the first day at the host company, we escort you and make the relevant introductions.

**Networking events and career development training:** we promote events and other activities to enrich your experience all along your stay in China. These events are a way to get to know other international young professionals, stay in touch with the Chinese professional community and meet new people from diverse industries and backgrounds.

**Periodical tutoring:** as a part of our coaching and career development service, we call you or meet every month. These meetings will be useful to let us know how the internship is going and how it is fulfilling your expectations.

**Internship certificate:** at the end of your internship experience you are going to get an official Internship Certificate issued by FourStars.
